STAT

Dear 

STAT

We have received your letters and appreciate them very much. We are currently seeking a means to recompense you for your time and effort expended in this project and are making some headway. We have concurrence from the "big boss" and now it is simply the method in which it will be done. We certainly want you to continue monitoring this project for us.

We have been extremely busy on several other projects which have been taking a great deal of our time and therein lies the cause of our inopportune silence for the last few weeks. Keep us informed on your progress and try to set up a meeting when you feel that the opportune moment has arrived for new talks with

 I hope you will forgive us for seeming lack of attention but will continue to feed us the "dope" as you have in the past. We hope to see you in the not too distant future.

STAT

Sincerely,

John and Bob
